Organizational Health Overview. Organizational health is about making a company function effectively by building a cohesive leadership team, establishing real clarity among those leaders, communicating that clarity to everyone within the organization and putting in place just enough structure to reinforce that clarity going forward.

Robert Browning's *Men and Women*, a two volume publication of new poems, was a major literary event in nineteenth-century Britain. These poems shift emphasis from the private, atemporal, and generally non-social genre of Romantic lyricism to the ironies and enigmas of human awareness and social relationships, to dramatic action in human speech.

Alan Baddeley and Graham Hitch proposed a model of working memory in 1974, in an attempt to present a more accurate model of primary memory (often referred to as short-term memory). Working memory splits primary memory into multiple components, rather than considering it to be a single, unified construct. Baddeley & Hitch proposed their three part working memory model as an alternative to the ...
