

monkey high vol 5 pdf

The phrase "cold enough to freeze the balls off (or on) a brass monkey" is a colloquial expression used by some English speakers. The reference to the testes (as the term balls is commonly understood to mean) of the brass monkey appears to be a 20th-century variant on the expression, prefigured by a range of references to other body parts, especially the nose and tail.

Brass monkey (colloquialism) - Wikipedia

The name "monkey cups" was discussed in the May 1964 issue of National Geographic, in which Paul A. Zahl wrote: "The carriers called them "monkey cups," a name I had heard elsewhere in reference to Nepenthes, but the implication that monkeys drink the pitcher fluid seemed farfetched. I later proved it true.
