Nelson Goodman's Fact, Fiction, and Forecast presented a different description of the problem of induction in the chapter entitled "The New Riddle of Induction". Goodman proposed the new predicate "grue". Something is grue if and only if it has been (or will be, according to a scientific, general hypothesis) observed to be green before a certain time t, or blue if observed after that time.

Packed with experiments and activities, this science unit explores weather and atmosphere in detail. The packet includes 121 pages and is designed to help children gain knowledge of meteorology as they recognize God's hand and feel the wonders of this world.

Science – Jenny Phillips

Teaching of Social Sciences The social sciences encompass diverse concerns of society and include a wide range of content, drawn from the disciplines of history, geography, political science, economics and sociology.

ON TEACHING OF

The history of science is the study of the development of science and scientific knowledge, including both the natural and social sciences (the history of the arts and humanities is termed history of scholarship). Science is a body of empirical, theoretical, and practical knowledge about the natural world, produced by scientists who emphasize the observation, explanation, and prediction of ...
